ORDER No. GAD 40 SSR 62, DATED BANGALORE, THE 12TH MARCH 1963
(PHALGUNA 21, SAKA ERA 1884).

Government direct with the concurrance of the Mysore Public Service Commission, that the Associateship of the Royal College of Science and Technology, Glasgow, in Mechanical Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Mining Engineering, Naval Architecture, Metallurgy and Textile Technology be recognised as a degree for purposes of recruitment to superior posts and services in the appropriate fields under the State Government

By Order and in the name of the Governor of Mysore,

B. PURUSHOTHAM,
Under Secretary to Government,
General Administration Department, (Services-1).

Issues instructions for guidance of competent authorities in the matter of orders of dismissal, removal or compulsory retirement of Government servants from service set aside by Courts

OFFICIAL MEMORANDUM

No. GAD 6 SIN 62, DATED BANGALORE, THE 2ND—29TH APRIL 1963
(CHAITRA 12—VAISHAKHA 9, SAKA ERA 1885)

It has been brought to the notice of Government that in many cases there has been undue delay on the part of competent authorities in taking appropriate action whenever an order dismissing, removing or compulsorily retiring a Government servant from service has been set aside by Courts. Delays in such cases are not excusable. In order to ensure that delays in such matters do not occur, Government are pleased to issue the following instructions for the guidance of competent authorities

2 According to sub-rule (4) of Rule 10 of the Mysore Civil Services (Classification, Control and Appeal) Rules, 1957, when a penalty of dismissal, removal or compulsory retirement from service imposed on a Government servant is set aside or declared or rendered void in consequence of a decision of a Court of Law, if the Disciplinary Authority, on a consideration of the circumstances of the case, decides to hold a further enquiry, the Government servant shall be deemed to have been placed under suspension by the Appointing Authority from the date of the original order of dismissal, removal or retirement and shall continue to remain under suspension until further orders. Consequently, the question of reinstatement of the concerned Government servant should be decided after considering the

feasibility of holding a fresh or a further enquiry into the matter. There may be cases where the competent authority finds that it is not expedient to hold a fresh or further enquiry because by lapse of time, evidence which was originally available is no longer available. In such cases, a decision should be taken, and where the original order had been the subject matter of an appeal to a higher authority with the approval of that authority, and the Government servant should be reinstated as soon as possible after the orders of the Court.

3. In cases where it is decided to hold a fresh or a further enquiry, it is open to the competent authority to reinstate the Government servant concerned if his continuance on duty would not prejudice the fresh or further enquiry so instituted or the gravity of the misconduct is not such as to be in-expedient in public interests to allow him to hold office. The important question will be whether in the light of the charges, the Government servant may be allowed to function in office or should be continued under suspension. Any decision for reinstatement depends on the decision of the competent authority on this question.

4. Where an appeal is preferred against the decision of the Court, no action should be taken under these instructions except with the approval of the Government.

5 The above instructions should be followed scrupulously and no delay should be allowed to occur between the date of the direction of a Court and action by the competent authority consequent upon the decision.

K. NARAYANASWAMY,
Chief Secretary to Government.

PUBLIC WORKS SECRETARIAT

Sanctions scheme for payment of subsidy to industries generating and using power generated from steam-turbine generators or from other sources and prescribes common rate for electricity produced through Diesel sets and Hydel Power.
